

SEPTIC-MEDIC

SEPTIC TANK TREATMENT SOLUTION

SEPTIC-MEDIC is an all-natural, non-toxic blend of diverse and beneficial bacteria formulated to re-populate your septic system to:

- Digest sludge, grease and reduce excess solids build-up
- Eliminate sulfide odours (rotten egg odours)
- Restore peak efficiency in sluggish septic tanks
- Unclog drain fields
- Reduce frequency of pump-outs
- Improve final discharge quality

Unlike other septic additives, Septic-Medic has a neutral odour that is not offensive when stored or applied. The safe, waste-digesting bacteria consume all household wastes, plus bio-nutrients and activators aid maximum waste digestion along with bio-active catalysts that actually prevent sulfide formation.

- **PERFORMANCE** – Septic Medic is super strength and will effectively digest sludge, grease and excess solids build-up at a maximum rate, and will restore any septic tank to peak efficiency.
- **SAFE** – Non-toxic and non-pathogenic so will not cause disease, harm or death to other organisms.
- **ECO-FRIENDLY** – This product contains 100% natural and beneficial bacteria, and does not contain harmful surfactants.
- **NON-CORROSIVE** - Safe for use with all pipeline fixtures and fittings.
- **ECONOMICAL** – Very low volumes required to treat systems - 500ml treats about 2500L of septic tank volume.

Available Sizes: 32 Ounce Bottle & 1 Gallon Container.
